# Albuquerque Economic Development

ABQSites.com

A GIS-based commercial sites and data interface

AED partners have the exclusive opportunity to list properties at no cost and benefit from AED's promotion to business decision makers across the country.

Access extensive data from local and national sources, combined with a single platform that offers a comprehensive search of available commercial properties in the Greater Albuquerque region.

Add your listings to ABQSites.com:

businessdevelopment@abq.org

ABQSites.com provides critical site selection resources:

1. AVAILABLE PROPERTIES
What buildings or land sites are available? Filter by square footage, zoning, community, address, keyword or nearby amenities. Identify properties located in local or federal incentive zones.

2. DEMOGRAPHIC ANALYSIS
Research labor force, population, educational levels and even employee types by distance or radius. Export into ready-to-go reports.

3. BUSINESS REPORTS
Use the business database to identify industry clusters and potential customers, competitors and suppliers.

4. COMMUNITY PROFILES
View community specific data sets, transportation resources, consumer spending and identify quality of life amenities for employees like housing costs.

Proprietary data sources included in this one-stop tool include Applied Geographic Solutions, National Center for Educational Statistics, InfoGroup/InfoUSA and local GIS layers available from regional and local jurisdictions.
