IT STARTS WITH A VISION

FBT Architects brings a collaborative spirit to the table, along with a design process that values your goals and input. We do this by cultivating genuine partnerships, providing great customer service and delivering creative solutions.

We strive to create optimal environments for our clients with safety of paramount importance. FBT has Crime Prevention Through Environmental Design (CPTED) Architects on staff to ensure the design of your project promotes safety and mitigates opportunities for crime and violent behavior.

Making the most of your money is critical to the success of your projects. Our depth of experience and knowledge helps us to be efficient and cost-effective—a benefit to you.

FBT Architects has a long-standing reputation for hands-on quality control and outstanding customer service. Our dedication to these values has earned us the reputation of being a client-focused firm. The trusting relationships we've established with employees, consultants, clients and the community enables us to provide an integrated team to achieve a finished product that works well on every level – environmentally, aesthetically and functionally—and one that is sustainable in the future.

PRACTICE AREAS:

- Commercial
- Healthcare
- Higher Education
- K-12 Education
- Government & Municipal
- Interiors
