

INDUSTRIAL CONTRACTOR SINCE 1982

Since 1982 Klinger has been based in Albuquerque and has constructed a wide range of projects throughout New Mexico. We have completed over \$1.6 billion worth of construction. Services include Design-Build, Design-Assist-Build as well as construction on a variety of industrial and commercial projects.

ALBUQUERQUE METAL RECYCLING

Services Provided: Precast and Cast-in-Place Concrete, Structural Steel, Metal Panels, Carpentry

The new facility significantly improved the productivity of the recycling process and profitability for Albuquerque Metal Recycling.

FRIEDMAN RECYCLING CENTER

Building Size: 87,000 square feet

Services Provided: Design-Assist-Build, Site Work, Concrete & Rough Carpentry

Klinger built this pre-engineered metal building for Friedman to provide recycling for the City of Albuquerque.

FACEBOOK DATA CENTER

Services Provided: Site Concrete Fencing & Electrical

Klinger has completed numerous projects at the Los Lunas data center since construction began in 2017.

Listed below are some of Klinger's valued repeat industrial customers:

- Array Technologies
- Boeing SVS
- Bueno Foods
- Caterpillar/CleanAIR
- Ethicon
- Facebook Data Center
- General Electric
- General Mills
- GCC Rio Grande Portland Cement
- Google Titan Development
- Intel Corporation
- National Distributing
- Oso Bio Pharmaceuticals
- Premier Distributors
- Ratheon
- Sandia National Labs
- Solo Cup Manufacturing
- Solar Manufacturing at Mesa del Sol
- SolAero / Emcore
- Tempur Pedic Productions

Klinger Constructors, LLC is a member of the Klinger Companies who have been named as a top performing Industrial contractor in the US by ENR. Ranking in the top 20 for the past (5) consecutive years.

LISTS MAY INCLUDE FIRMS WHO DO NOT APPEAR ON THE TOP 400.

Klinger is a merit shop contractor who works with union and non-union subcontractors. We maintain a traditional General Contractor value of doing as much of the work on projects as possible. This allows us to better control costs and schedule.

Our self-performed work could include, but not limited to the following:

- Concrete finishing
- Demolition
- Structural Concrete work
- Structural Steel Erection
- Site concrete
- Pre Engineered Metal Building Installation
- Misc. Steel Fabrication & Installation
- Rebar Placement
- Rough & Finish Carpentry
- Specialty Installations

Klinger employees complete some of the most hazardous work on construction projects including demolition, concrete and steel erection. We put great emphasis on pre-task planning, reporting and sharing near misses, and daily huddles to ensure our crews are continuously working safe. All employees are dedicated to keeping fellow employees, subcontractors and project visitors safe at all times.
