Advancing Quality Of Life, Quality Of Place, And Quality Of Opportunity

Under the leadership of Governor Eric J. Holcomb, Indiana has experienced four consecutive record-breaking years for job and investment commitments. To maintain this momentum and accelerate the state’s economic growth, Indiana launched the Regional Economic Acceleration and Development Initiative (READI), a bold, transformational initiative that will dedicate \$500 million in state appropriations to promote strategic investments that will make Indiana a magnet for talent and economic growth.

Through this initiative, the state will encourage neighboring counties, cities and towns to partner to create a shared vision for their future, mapping out the programs, initiatives and projects that are critical for them to retain talent today and attract the workforce of tomorrow.

READI is expected to attract at least \$2 billion of local public, private and philanthropic match funding that will propel investment in Indiana’s quality of place, quality of life and quality of opportunity.
