Greater ABQ area entities collaborate to increase economic growth

Rozanna M. Martinez, Albuquerque Journal, N.M.

Mon, April 8, 2024 at 11:02 PM EDT · 4 min read

Apr. 8—It takes teamwork to make the dream work when it comes to economic development.

In New Mexico, department staff from the city, county, state and other organizations work together for the common goal of economic growth throughout the state.

Marcos A. Gonzales, economic development director for Bernalillo County, said the county works with economic departments in Albuquerque and Los Lunas, Rio Rancho, Sandoval and Valencia counties.

"We're all with Albuquerque Regional Economic Alliance that represents the area," he said. "We'll have quarterly meetings where all the economic developers get together. We're constantly working, talking to the city about what they're doing."

Gonzales said Array Technologies, an Albuquerque-based, global provider of renewable energy solutions, and Maxeon Solar Technologies selecting Albuquerque as a site for their facilities are prime examples of how different entities work together to promote economic growth .

Another example is Bernalillo County's investment in the Central New Mexico Rail Park in Los Lunas.

further development in Bernalillo County and future Bernalillo County employees working in that area."

Bernalillo County has also contributed to the state's space sector.

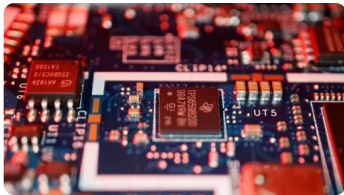

"(Space Valley) just had their regulatory bootcamp that the county helped sponsor and we work with them on all of their activities as well," Gonzales said. "The Q Station, it's really one of the only places in the country where they can work with foreign space companies that are looking to set up a U.S. company. They work with a lot of (companies) on the international stage as well, and we worked with them. They're also a great partner in pushing the space industry, which was born here in New Mexico, and we need to get more aggressive
